DEALERS WORRIED OVER HIS RULING

State Treasurer Gives Hard Blow to Automobile Business.

QUESTION

0F TAXATION

He Holds That Recent Legislation Applies to Second-Hand Machines.

[Special to The Times-Dispatch.]
Raleigh, N. C., July 1.—Automobile dealers are very much exercised over a feature of the new automobile tax in the revenue bill, whereby it is prescribed that no automobile can be sold in this State unless the manufacturers have previously paid an annual manufacturer's license tax of \$500. State Treasurer Lacy tells the dealers that he rules that this must apply to second-hand machines taken as part payment for new machines, as well as to new machines sold first hand by dealers. The dealers insist that a ruling of this sort would practically put them out of business, as there are numbers of the makes of machines in the hands of users who want new machines with their old machines to go in part payment, and if these unlicensed machines cannot be handled by the dealers there will be a great hardship and loss of business. All agree that the intent of the Legislature was to impose this tax on the sale of new machines sold by agents of the manufacturers or dealers, and not to apply to sales of second-hand machines. It is expected that the issue will be settled soon, either by a ruling by the Attornew-General that the treasurer need not enforce his ruling or through a test case to settle the intent of the Legislature. State Treasurer Lacy says the manufacturers are coming forward now very generally with the annual \$500 tax, which is really due June 1.

The Eastern Carolina internal revenue district, Wheeler Martin collector, passed the \$5,000,000 mark in receipts for the fiscal year ending June 30, the receipts for the year aggregating \$5,517,128, a gain of \$4,140,128 over the previous year. Part of this big increase is due to the South Carolina district having been added to Eastern Carolina during the year. However, the Eastern Carolina receipts would have exceeded \$5,000,000 without the additional revenue from South Carolina.

Redfield Wants to Know About Broken Wheels and Axles.

Washington, July 1.—Secretary Redfield instructed the Commerce Department's Bureau of Standards to-day to make a study of railroad accidents resulting from broken car wheels and axles. The secretary decided to make the investigation as the result of data gathered by the Interstate Commerce Commission, which showed that in the eleven years, 1902 to 1912, inclusive, about four times as many wrecks were caused by broken car wheels as by broken rails, and that wrecks from broken axles were half again as numerous as those from broken rails.

Spencer had hit and gone around to third on Krepp's sacrifice and Laugh-lin's out. Carter walked Schmidt, a double steal put Spencer across the plate and Schmidt on second. Barnett's two-bagger put him across with the second run on the inning.

Newport News tied it up in the fifth inning on a base on balls and singles by Chastant, Gondolfi and Smith, but Petersburg added two more in the last' half of the same frame. Schmidt singled and went to second when Carter hit Barnett. Bob scored a minute later when Simmons tripled to deep right. Damrau's double and Spencer's single gave Petersburg another in the eighth. Centrefielder Smith, of the visitors, furnished the fielding play of the day, when he made a one-hand circus catch of Brooks's long drive to right centre. For the second time in two days First Baseman Barnett had a perfect day at the bat, two doubles out of as many
